

Did you know that you can be reimbursed for advance care planning conversations with your patients?

Advance Care Planning (ACP) conversations are covered by Medicare

These conversations can happen as a part of your patient's Annual Well Visit (AWV), but can be integrated into any appointment. There is no copay associated with ACP conversations at an AWV.

CPT Code for initial ACP conversation

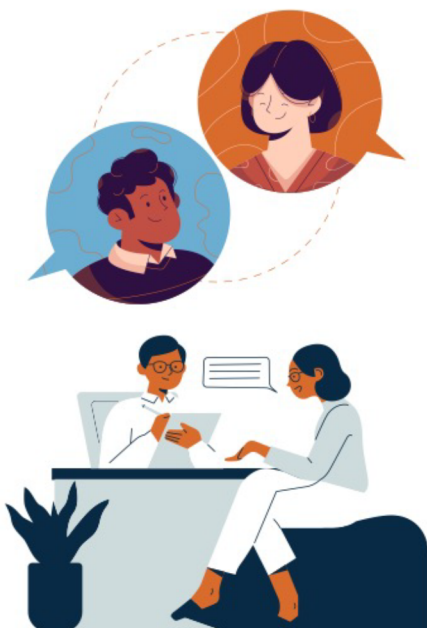

**99497**

CPT Code for every half-hour extension

**99498**

Make sure that when you talk with your patients about ACP, that you document this conversation in their chart.

Advance Care Planning conversations can happen virtually via video or over the phone. ACP conversations are also covered under most commercial insurance plans; check with individual insurers to ensure coverage.
